

Apple Butter Photography

All the Details and Fine Print

Times

Time frames given in the session descriptions are not absolute. The descriptions give the “up to” allotted time frame for the session, however it is typical to be done before the stated allotment. For example, family sessions are allotted an hour in the description, however a typical family shoot is done within a ½ hour, as many families find it exhausting to pose for a whole hour, especially with children or in the heat. Therefore, an hour is allotted in case of mishaps or unforeseen occurrences, but sessions are booked in 30-minute increments.

When You Book

When you book a session, typically a phone consultation will occur. This just means that we will follow up with you to get/give all the details about your session. Details about where we will shoot, what you are looking for in your shoot, any ideas you might have that you want in your session, what you will be wearing or colors you want to implement, etc. will be discussed. Sometimes no contact is needed, such as mini-sessions where there is a set location, theme, and date. However, weddings, family shoots, newborn sessions, senior portraits, etc. typically require some communication about what is to be expected and desired outcomes. Please be advised that promotional sessions, gift certificate redemptions, or discounted shoots cannot be booked online... they must be booked by calling.

Locations

Shooting sites are at the discretion of the client (unless redeeming a promotional offer in which case there is a designated shooting location to be given by the photographer). Should the client not have a place in mind that they want to shoot, the photographer can make suggestions. For example, many popular photo destinations along the Grand Strand are Myrtle Beach State Park, Huntington Beach State Park/Atalaya Castle, Brookgreen Gardens, the beach piers, Conway Riverwalk, downtown Conway, various marinas, and various Pawley’s Island plantations. All locations will be confirmed in the phone consultation between the client and Apple Butter Photography once a session has been booked. The possibilities are endless! Studio sessions are mobile, meaning if you desire a studio-type session (ex: newborn session, family session with a traditional portrait background, or community portraiture such as a dance company’s portraits of their students) the backdrops and lighting will be brought to your

location to provide the most comfortable session possible. Locations outside of the area, such as destination weddings, Charleston, North Carolina, etc. will be charged accordingly at an agreed upon rate made between the client and Apple Butter Photography, and (depending on the location) must include lodging. This is done on an individual basis.

Attire

Each photo session is unique to the client, and attire is at your discretion. However, if you are unsure of what to wear, here are some suggestions that will ensure your photos will be at their utmost potential. Matching outfits always make for a memorable portrait, particularly in larger groups such as family beach sessions (ex: all white tops/dresses and either khaki or denim bottoms). Coordinating attire is also an option, such as a color scheme (ex: orange, green, brown, and yellow for a fall shoot), various shades of the same color (ex: different shades of blue on each member), the same print of fabric on everyone (ex: everyone wearing a plaid article with their outfit), and thematic schemes (ex: all red and green attire/accessories for a Christmas session), etc. Newborn shoots do not require attire unless the client has something specific they want to use, otherwise newborn outfits/props/accessories are provided.

Testimonials

Should you love your session and/or photos, we would love to hear your thoughts! Feel free to send us an e-mail with those kind words so that we can use them as testimonials. Not only do they make our day, but they help future clients by getting to know how your experience went! It is even more helpful if you could share those testimonials by giving us winning ratings/reviews on Google, Yelp, Thumbtack, and Facebook, as well as “liking” our Facebook page. If you are a satisfied customer, your kindness is greatly appreciated.

Policies and Procedures

To maintain the utmost quality of service and products, certain policies must be in place. Here is an overview of our policies and procedures.

Payment must be received to book a session. This is to ensure that your spot is secured. Payment can be paid online via credit card (Visa, Mastercard, Discover, American Express), debit card, Paypal, or Paypal financing. Paypal financing is available to clients who wish to make low monthly payments (with approved credit) on their session. This option is available at the checkout and is subject to Pay pal’s conditions. Credit/debit cards are also accepted on-location for same day bookings or walk up customers (ex: clients who showed up at a mini-session without an appointment). Cash is accepted on same day bookings, walk-up sessions, or upon approval of the photographer, and receipts will be provided for cash transactions. Checks are not accepted.

Cancellations are non-refundable; however, we are aware that unforeseen circumstances can occur. In the event that you cannot make your session, you can reschedule for another date/time by contacting us via phone or e-mail within a reasonable time frame*. “No shows” will result in forfeiture of fees paid. If a “no show” chooses to reschedule, they will be charged again. If rescheduling is not possible within a month of the cancellation, a session credit will be issued for your convenience to use at a later date. At least a week’s notice is required for rescheduling.

Refunds are not given. Should you need to cancel your session, you are welcome to reschedule as mentioned above, or receive a session credit for future use (if cancellation is made in reasonable time), however we do not refund cancellations or deposits.

Lateness is sometimes an unavoidable occurrence. Please note however, that if you are late to your session, your session will simply be reduced by that time. In other words, if you are 15 minutes late, you will have lost those 15 minutes out of your allotted session time. We do not run over into the next time slot for various reasons, such as another client, the photographers’ schedule, etc. As a courtesy to everyone else, please try to avoid being late.

Holidays are a special time, not just for clients but the photographers as well. Sometimes however, clients desire to have photographs taken on holidays for various reasons, such as guests/family coming in from out of town that can’t be photographed together any other time. It is rare that a photographer will be available on certain holidays (Christmas Eve, Christmas, Easter, Thanksgiving, etc.), however if we *can* accommodate your holiday session, the fee for that session will be doubled and it is always appreciated if a generous tip be provided to the photographer. These sessions can only be booked via telephone upon approval of time and date. In other words, accommodation is not guaranteed, but if we can make it happen...we will.

* Reasonable time frame means that enough time is given to re-book your session with another client and not be at a loss for that session. Same-day or “the day before” reschedules are not considered a reasonable time frame and are subject to forfeiture of fees paid. Often, clients book their sessions weeks or even months in advance. This needs to be considered when rescheduling a session close to its’ date. In the case of mini-sessions, rescheduling must occur at least 2 days prior to the mini-session to be able to reschedule for the next mini-session that becomes available.

Session Types and Fees

Please note that while we try and update this PDF when applicable, if fees listed here are different than when you book a session, the most current, accurate fees are on the "Book Online" and "Pricing" Section of the website.

Family: \$125

Family sessions typically include photographs of the whole group, the parents individually and/or as a couple, the children individually, the children as a group, and the children with just the mother and/or just the father if desired. Of course, any other combination of family members that the client wants will be photographed as well. Pets can also be included, but if a pet is to be included, please notify us beforehand. Family sessions are usually completed within ½ hour.

Family sessions are for one family, with no limit on the number of people in that family. If extended family members are to be included in the session and the client wishes to have the entire group in one photograph, that is fine and only one session fee will apply. However, if the extended family members want to branch off and be photographed as smaller groups in the session, then each "group" will be charged for a session. *Example:* A family of 13 (2 grandparents, 1 set of parents with 3 children, 1 set of parents with 2 children, and a single parent with 1 child) wants to be photographed as a group. This would be considered one family session and be charged as such. It would also include individual photos of the party that booked/paid for the session. However, if one set of parents then wants their family to be photographed individually, additional charges will apply to them at a discounted rate of 20% off (per family). So, in the previous example, if it was the grandparents that paid for the shoot, the \$125 fee paid would cover the entire group as well as photographs of the grandparents. Then, each of the other smaller families in the group would be responsible for a charge of \$100 for their family to be photographed individually. If all three individual families wanted to be photographed, an additional \$300 would be due. It is necessary to charge additionally because there are essentially 3 more family sessions that would be taking place at this session. The time it would take to complete the shoot and the number of photographs taken would be greatly increased, particularly with multiple children to photograph individually and in groups. Large family sessions like this one, where multiple family members are being photographed, can take up to an hour. Turnaround time for finalized images is approximately 2-3 weeks.

Senior/Graduate Portraits: \$125

This session typically involves photographing a high school graduate, however we also include college graduates in this category. This includes people of all ages because many adults go back to college, graduate, and then want their photographs taken to commemorate their accomplishments! It usually takes more time to complete senior/graduate sessions because often there are multiple changes in attire and/or settings. We encourage the client to bring

several outfits to achieve various looks in their photographs. Often, a client will also change their hairstyle and/or make-up, depending on the outfit. For example, clients with long hair may want their hair down for some shots and up for others to get various looks in their photographs. Not all graduate sessions utilize different outfits/looks. This is solely at the discretion and wishes of the client. Also, if the client also wants a traditional background for a cap and gown portrait, then you must notify us, so we can bring the appropriate background. However, the client is responsible for their own cap and gown at the time of their session.

If more than one location is requested by the client, then driving arrangements must be made by the responsible party to get the graduate (if the graduate is a minor or does not drive) to and from different locations. This will be discussed in the phone consultation. Not all graduate sessions utilize different locations. This is solely at the discretion and wishes of the client. Graduate sessions in only one location can take up to an hour, however if multiple locations are requested then sessions can take up to 2 hours. Turnaround time for finalized images is approximately 2-3 weeks.

Couples/Engagement: \$125

Portraits of couples are done at the location of the clients' choice. These sessions involve the couple in multiple poses and from various angles, to ensure that the couple gets many different shots in their photo session (as with the other types of sessions). Different settings are also included per location. For example, if a couple wants their session at the beach, there may be shots done by the dunes, in the water, and under the pier, etc. depending on what is available at the location site. We try to incorporate more than just a "say cheese" pose in all our sessions and give each client a variety of images to cherish. If the session is of a recently engaged couple, then the clients can also have the ring photographed as well as a mock proposal. It is always recommended to coordinate outfits during these sessions, for a cohesive look in the portraits. The couple doesn't necessarily have to match, but yellow and pink polka dots do not look good with royal blue and orange plaid. Couple sessions are usually completed within ½ hour. Turnaround time for finalized images is approximately 2-3 weeks.

Maternity: \$125

This session can be of the mother-to-be only or combined with her partner. Some clients add their other children as well (if they have other children). This is solely at the discretion of the client. The focus, however, is always on the mother-to-be. Sessions often include belly shots, however not all clients are comfortable being that exposed, so these are discretionary, as we want all of our clients to feel as comfortable as possible. Therefore, many clients opt for full coverage in lieu of belly exposing garments. The client will provide her own attire, so skin exposure is completely up to her. Often, mothers-to-be wear long, flowy dresses/sarongs for a

very feminine look and these complement the beauty of pregnancy very well. We often get asked what should be worn at a session and where you can get it, so we have provided two websites below that are great for ordering maternity attire.

Maternity clothing: www.pinkblushmaternity.com

High-end/formal maternity clothing: www.sewtrendyaccessories.com

Sessions can be on-location or at the client's home for ultimate comfort in an intimate setting. At-home sessions can be accompanied by lighting and backdrops provided by us, and these options will be discussed during the phone consultation when the clients' wishes are discussed. Lighting and backdrops can also be provided on-location depending on the nature of the shoot, to be discussed during the consultation. Maternity sessions can take up to an hour. Turnaround time for finalized images is approximately 2-3 weeks.

Newborn: \$125

This session is usually done within the first 10 days after the baby is born. After 10 days old, newborns start staying awake longer, moving around more, are much more alert, and are less likely to be easily posed, so we encourage scheduling your newborn session before he/she is 10 days old. However, newborn sessions can be booked any time after the baby is born. This session typically occurs at the client's home or other location designated by the client. This ensures the most possible comfort for the infant. Outdoor locations for newborn sessions are often avoided due to the baby's age, however this is at the clients' discretion. When a newborn session is booked, the details of the upcoming session will be discussed in the phone consultation, such as when the baby is due, the gender of the baby, the desired color scheme (if there is one), and the client's wishes and/or ideas. All lighting, backdrops, props, and newborn outfits (discussed via consultation) will be provided, creating a mobile studio on location. The client is welcome to provide their own outfits for the session as well if they choose to. Parents are encouraged to have bottles on hand to feed the baby, if needed, in between shots to comfort the baby. This relaxes the baby and puts him/her in the "milk coma" needed to get those sweet, peaceful, sleeping angel shots! Also, parental snuggles in between shots and/or assistance in swaddling is sometimes needed.

Newborn sessions usually take around an hour and will always include a minimum of three different "looks" (outfits, backdrops, props, etc.) and multiple poses. Turnaround time for finalized images is approximately 2-3 weeks.

Maternity/Newborn Combo: \$225

This is an option for mothers-to-be who want the maternity session while pregnant and also the newborn session once the baby has arrived. It offers the client a discount of \$25.00 to

book this combo. After the initial maternity session, details about the due date of the newborn (as well as what is expected of the newborn session) will be discussed, and an approximate date will be set. This date will be confirmed once the baby arrives, so it is imperative that we be notified upon delivery, so we can be prepared to photograph your bundle of joy when the time comes!

Birth: \$750

This session captures the miracle of life. With permission of the hospital/place where you plan to give birth, your labor and delivery will be preserved in time through photography. Images will be taken at all stages, to show the entire process. The client will decide any images they do not want captured, as the comfort of the client is our highest priority. This session will begin once labor has reached the point that they baby will be arriving within a few hours. Images will show the pre-labor walking around, comforting from loved ones (if you will be accompanied by anyone), pre-labor activities, labor, the birth itself, and then the newborn baby! Details following the birth will also be photographed, such as clean up, the mother's relief and happiness, and new baby snuggles! In the event of emergency situations during labor where medical professionals require the removal of the photographer, we cannot guarantee delivery images, or any images until your safety is ensured and the photographer is permitted back into your room. The client must keep Apple Butter Photography regularly updated the week of expected delivery, particularly the day of labor, to ensure the photographers' accurate arrival. The photographer should know to arrive after you have been admitted, placed in the room you will give birth in, and labor has begun. Hours for birthing sessions vary, due to the unexpectedness of the birthing process. Some mothers deliver quickly, others do not, so we try to accommodate all situations accordingly. Turnaround time for finalized images is approximately 2-3 weeks.

Fresh 48: \$400

This session covers the baby in the hospital (or wherever you gave birth) or home after the birth has taken place, typically the next day (or within 48 hours after the baby has been born). It covers the new baby, all the snuggles, the visiting guests/family members, and the love that is in the air when a new baby arrives! Typically, the client will decide a date/time that would be best to do the session based on when the guests/family members will be present, because the session typically lasts approximately 2 hours. Turnaround time for finalized images is approximately 2-3 weeks.

Fashion: \$125

This session is for the client who wishes to be photographed in a model-type way. Often, clients just want to be photographed for no reason other than to have great images of

themselves! This would be the session to choose in that circumstance. The session goes beyond just posing for a portrait, and includes many different stances, angles, and non-traditional shooting. Various lighting techniques can be used to get dramatic images, and various settings/outfits can be utilized as well. This session has also been used commercially for clients who are modeling their clothing, accessories, make-up, hair styles/products, etc. and models themselves who desire additional images for their portfolios.

This session is done on-location and can also include our mobile studio if studio shots are desired. However, since the allotted time for a fashion shoot is up to one hour, it is recommended that if the client wants studio images *and* outdoor on-location images done, that they book at least a 2-hour block, because both cannot be done in one hour. Therefore, when booking, please know how many hours you will require because each hour is considered one session, and book accordingly. Turnaround time for finalized images is approximately 2-3 weeks.

Swimsuit or Boudoir: \$125

The swimsuit and boudoir sessions are similar to the fashion shoot listed above. Both can be done on-location and can involve different posing techniques, dramatic lighting, and non-traditional images. However, the boudoir session can also be done in the client's home for an intimate setting that ensures the utmost comfort of the client. Not all clients feel relaxed enough to have a comfortable boudoir session anywhere else, and we strive to provide the most satisfactory atmosphere possible to produce the best images. A studio set up will be provided at boudoir locations when necessary or requested. Details will be discussed via phone consultation to determine the needs/wishes of the client, the desired outcome of the session, and what the client is looking for in their session. Clients are responsible for providing their own attire. Sessions can take up to an hour. Please note that hair/make-up, etc. should be done before the photographer arrives for your session, otherwise getting ready will cut into the allotted hour for your session. Turnaround time for finalized images is approximately 3-4 weeks.

Modeling Portfolios: \$400 (if not paid in full, there is a required deposit of \$200 at time of booking)

This option is available for the client who wants many, various types of images. The session is up to 4 hours and will encompass many different looks. The intent of this session is to include everything that a client might need in their portfolio, such as headshots, full body images, fashion and swimsuit images, and close-ups. The client provides his/her own attire (as many outfit changes and/or make-up and hair changes as needed within the allotted time), however all lighting and necessary backdrops will be provided on-location. Often, different locations are used, therefore it is necessary that the client have transportation to and from

those locations (if used). If the entire modeling portfolio is completed in one day, it is allotted up to 4 hours. However, it is typical to break up the session into different days to accommodate various locations, and looks of the client (hairstyle, make-up, dress). In this circumstance, you will book your session on the first day you want to shoot, and then the following shoots will be discussed and scheduled by the photographer.

If the portfolio is completed in one day, turnaround time for finalized images is approximately 3-4 weeks. However, if the portfolio is broken up into several sessions then the finalized images will not be ready until after all sessions have been completed. Once completed, the time for finalized images is approximately 3-4 weeks.

Mini-Sessions: \$75

Mini-sessions are special sessions that only take place on certain dates, locations, and times to be announced by Apple Butter Photography via their Facebook page and the “announcements” section of the website. They are typically done at least once a month and usually on weekends, allowing clients to get short, quick photography sessions on a budget. Each mini-session typically has a theme (Ex: Easter sessions with a bunny, Christmas sessions with a sleigh, Independence Day sessions in red, white, and blue, etc.), and details are always given in the announcement.

These sessions are up to 20 minutes per client, and multiple clients are often booked throughout the day, so please come prepared for your time slot. If you are a walk-up client that day (no appointment was made), payment will be taken on-location. Mini-sessions can be used for family sessions, individual portraits, child portraits, couples, pets, etc. Turnaround time for finalized images is approximately 1 week.

Sunrise Session: \$175

This session is based daily on the time that sunrise is set to occur. This can be found with a simple internet search for the date and geographical area you are looking to book your session. However, when booking online, always choose 6:00 a.m. as your time slot for a sunrise session. These sessions can be used for any type of client (Ex: family, couple, fashion, swimsuit, etc.) but only take approximately 30 minutes due to the short time span of the sunrise. Please be advised that punctuality is necessary in a sunrise session because there are only a few minutes of actual sunrise. Therefore, if you are late, you could miss the sunrise itself for your session. Also note that sometimes skies are cloudy, and this is uncontrollable. No refunds will be given due to cloudy skies or not getting the exact colors you imagined for your sunrise shoot. Each sunrise is different, unique, and not in the hands of Apple Butter Photography. We cannot guarantee optimal skies at sunrise; however, we will do everything in our power to ensure that you get the best possible results in your photographs. Turnaround time for finalized images is approximately 2-3 weeks.

Business/Executive Portraits: \$125

This session is for clients who need quality images to represent themselves in the professional world. Sessions include traditional images (backdrop and various headshots) and/or casual images (office setting, workplace, or on-location portraits). Often, clients use these images on business cards, their websites, marketing materials, advertising, and/or other business-related items. Professional headshots are a necessity in today's competitive business world, so we give each client numerous images to choose from in their session. Sessions are done at the client's place of business or on-location where the client chooses, and a studio set up will be brought for the traditional headshots. Please note that if multiple professionals are getting their portraits done at one setting, each will be charged. The fee listed is for one individual only, however we offer a discounted rate of \$100 per client if more than 1 person is having portraits done at one setting. This session is usually completed within ½ hour (based on 1-3 individuals). Turnaround time for finalized images is approximately 2-3 weeks.

Events: \$125 per hour, 2-hour minimum

This session can include birthday parties, baby showers, going away parties, welcome home celebrations, Christmas parties, galas, fundraising events, bachelor/bachelorette parties, company events, or any other type of special event or celebration. The rate for this session is based on how many hours the photographer will be needed. This type of session cannot be booked online, it must be booked by calling, so that details of the event and hours needed can be discussed and handled on an individual basis. Turnaround time for finalized images is approximately 2-3 weeks.

Weddings

There are three wedding packages available. The details of each are explained here. Every wedding requires a non-refundable deposit (this is standard practice) to secure your date. The balance must be paid at least a month before the wedding date unless prior arrangements are made. An additional photographer can be added to any wedding package for \$300.

The "To the Point": \$350 (if not paid in full, there is a required deposit of \$175 at time of booking)

This package is our most budget friendly package and accommodates the client who simply wants their ceremony captured and professional images of themselves on their special day. Coverage includes the ceremony itself followed by traditional formal portraits. These portraits include images of the bride, the bride and groom, the wedding party (if there is one),

the family (if present), and the rings. The bride and groom will be photographed in several different ways, to ensure many poses and various types of images received beyond the typical “say cheese” image. During portraits, we ask that all guests be asked to vacate the area, usually via announcement of the D.J. or designated family member, to ensure that we can focus on capturing these intimate images with privacy, and to avoid cell phone images being taken of the photographer’s work. You are paying good money to have professional photographer, so please allow your photographer to do their job without disruption. Arrival time of the photographer will depend on when and where the ceremony will take place, and this will be discussed in the consultation, along with any special needs/circumstances that aren’t covered here. This package is usually done within an hour, depending on how long your ceremony is. Turnaround time for finalized images is approximately 2 weeks. In summary, this package includes the **wedding ceremony and portraits afterwards**.

The “Short & Sweet”: \$650 (if not paid in full, there is a required deposit of \$350 at time of booking)

This package is our most popular package and accommodates the client who wants many memories captured on their special day. Coverage includes the day’s preparations, wedding decorations, the bride (and bridesmaids if there are any) getting ready for the wedding, the bride’s accessories (shoes, jewelry, bouquet, garter, etc.), the ceremony itself, and finally the traditional formal portraits. These portraits include images of the bride, the bride and groom, the wedding party (if there is one), the family (if present), and the rings. The bride and groom will be photographed in several different ways, to ensure many poses and various types of images received beyond the typical “say cheese” image. During portraits, we ask that all guests be asked to vacate the area, usually via announcement of the D.J. or designated family member, to ensure that we can focus on capturing these intimate images with privacy, and to avoid cell phone images being taken of the photographer’s work. You are paying good money to have professional photographer, so please allow your photographer to do their job without disruption. Arrival time of the photographer will depend on when and where the bride is getting ready, and this will be discussed in the consultation, along with any special needs/circumstances that aren’t covered here. This package is usually done within three hours. Turnaround time for finalized images is approximately 4-6 weeks. In summary, this package includes **getting ready, the wedding ceremony, and portraits afterwards**.

The “Whole Shebang”: \$980 (if not paid in full, there is a required deposit of \$500 at time of booking)

This package is our most inclusive package and would be considered all-day coverage (although it typically uses up to six hours). This package accommodates the client who wants the most memories captured on their special day as well as the reception. Coverage includes the day’s preparations, wedding decorations, the bride (and bridesmaids if there are any) getting ready for the wedding, the bride’s accessories (shoes, jewelry, bouquet, garter, etc.),

the ceremony itself, the traditional formal portraits afterwards, and the reception and all its highlights. The portraits include images of the bride, the bride and groom, the wedding party (if there is one), the family (if present), and the rings. The bride and groom will be photographed in several different ways, to ensure many poses and various types of images received beyond the typical “say cheese” image. During portraits, we ask that all guests be asked to vacate the area, usually via announcement of the D.J. or designated family member, to ensure that we can focus on capturing these intimate images with privacy, and to avoid cell phone images being taken of the photographer’s work. You are paying good money to have professional photographer, so please allow your photographer to do their job without disruption. After portraits are completed, the reception commences. Coverage of the reception includes guests and the receptions’ highlights. Examples of these moments could include getting the garter, garter toss, bouquet toss, cake cutting, first dance, father-daughter dance, mother-son dance, or any other highlights that you will have at your reception. Each wedding is different, so the traditions that you choose to have during your reception could vary. Therefore, the photographer needs to be made aware of these specific moments, so that everything can be captured on your big day! Arrival time of the photographer will depend on when and where the bride is getting ready, and this will be discussed in the consultation, along with any special needs/circumstances that aren’t covered here. This package also includes a beautiful, complimentary 8x10 faux canvas print to mount on your wall and an optional complimentary engagement session preceding the wedding date. Should the couple choose to get this engagement session, the date to shoot the session will be discussed in the consultation, and the images will be ready within 2 weeks. Turnaround time for finalized images of the wedding is approximately 6-8 weeks. In summary, this package includes ***an optional engagement shoot, getting ready, the wedding ceremony, portraits afterwards, and reception.***

School/Organization Photography

School/organization photography is a separate entity of Apple Butter Photography and is handled directly. This type of session refers to groups, where the images will be purchased by the individuals in a particular group. Examples include school portraits, company portraits, dance classes, football teams, gymnastics teams, cheerleading squads, baseball teams, soccer leagues, karate classes, clubs or any other type of group/organization. In this type of session, photographs are taken on-location. Backdrops and lighting will be provided if necessary for the type of shoot. When possible, order forms are sent out before the session takes place, otherwise proofing envelopes will be provided for ordering within 2 weeks after the session has taken place. Orders are filled 3-4 weeks after orders have been completed. Group sessions are unique in that different groups have different needs, therefore we will accommodate group sessions on an individual basis and devise a plan that fits the groups’ needs. Please call or e-mail for more information.

Add-On Services and Fees

Next-Day Service: \$75

This service is an option for clients who need their images in a hurry. This option guarantees that your images (and any necessary editing) will be ready by the next evening following your session. This option is not available for weddings, modeling portfolios, birth sessions, or Fresh 48 sessions.

Same-Day Service: \$125

This service is an option for clients who need their images immediately. Please note that it only applies to sessions that have been completed before 2:00 p.m. and means that your images will be ready that evening. If your session was finished any time after 2:00 p.m., we cannot guarantee same-day service. This option is not available for weddings, modeling portfolios, birth sessions, or Fresh 48 sessions.

Wedding Reception “Perk-A-Moon”

This is an option that can help a couple get funds for their honeymoon (or funds for anything they wish). An enlarged canvas portrait from their engagement shoot (valued at \$250) will be put on display at the reception with a contribution box. A sign will be provided that informs the guests that by contributing, they are helping the couple “win” the canvas portrait and fund their future together! Guests can put contributions in the box to cover the cost of the canvas, and any money received after the \$250 fee for the canvas will go directly to the couple! This is an awesome way to raise funds for the couple, and contributors feel good knowing that they are giving the couple an image for their home that they adore while also helping them out financially.... it is a win-win! Should the \$250 fee not be met, all proceeds will be split equally between Apple Butter Photography and the couple, minus the production costs of the canvas.

Gift Certificates

Gift Certificates can be ordered by calling or e-mailing us. They can be purchased for any amount and can be picked-up by the client or shipped directly to the recipient (this requires an additional \$5.00 to cover the cost of shipping and tracking information). These make a perfect gift and serve as an option for those wanting to book a session as a gift for another person without knowing when they will be available. If ordering gift certificates for birthday gifts or Christmas gifts, please allow enough time to process and/or ship the order in time for them to receive it by those dates.

Additional Photographer for Weddings: \$300

Please note that there are shipping charges for anything that must be shipped

After Your Session

Once your session is completed, work will begin on creating beautiful images for you that can be cherished for a lifetime! Once your images are finalized, you will be given access to your own, personal online gallery of all your images. From this gallery, you can decide which images you like, and which you don't, which ones you will keep and which ones you won't, or if you want every single one! Various purchases are available from this gallery, including prints, canvases, your own personal app of your images, CD's, and more goodies. Once your gallery is completed, we will e-mail you the details so you can view your album.
